

SPECIALIST PHYSIOTHERAPY WORKSHOP

12-20 DECEMBER 2018

CERTIFICATE IN SPINAL MANUAL THERAPY (CSMT)

Course objectives

By the end of the workshop participants will be able to:

- Identify the multidimensional causes of spinal pain
- Understand pain mechanisms & their clinical relevance to complex spinal pain disorders
- Sub-group patients according to Peter O'Sullivan's classification system
- Understand the contributors and predictors of persistent spinal pain
- Assess & manage spinal pain disorders using manual therapy, motor control exercises and neural sliders.

Vaidas Stalioraitis FACP has over 15 years' experience working in the field of musculoskeletal physiotherapy.

Vaidas is a specialist musculoskeletal physiotherapist, as awarded by the Australian College of Physiotherapists in 2016.
